Subject: Cuprian Smithsonite, Osazirwaite, Chalcophanite, Cerussite, Wulfenite others

Welcome to Wrights Rock Shop

I updated the 79 Mine Gallery with cuprian smithsonite, osazirwaite, hetaerolite, cerussite, aurichalcite, chalcophanite, wulfenite, hemimorphite, smithsonite and others on 2/27/13.

The specimens in this gallery are from the last major mining effort in the early 1990's and the 2012 specimens collected by John Callahan. Very little has been found recently. The mine is virtually no longer being operated.

Please mention that you are a member of Wright's Mineral News for your 10% discount.
