We have updated the regular website galleries with 50 new specimens. Some fine things here - gem crystals, an oustanding chrysoberyl, a large showy blue hemimorphite, a superb large cabinet amethyst from Romania, etc.

New auction specimens have been posted. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * gem diaspore crystal
- * excellent large Peruvian pyrite, very sharp and bright
- * gemmy showy green apophyllite from India
- * a very fine cabinet sized Arkansas quartz
- * a choice sodalite, very deep blue color, from Afghanistan
- * good Greek adamite
- * well crystallized torbernite from Congo
- * French axinite
- * selected Viburnum Trend pieces
- * Plus many, many others ...

As always, we welcome your comments and suggestions.
