Dear David A.,

Just in case you missed or haven't had a chance to review this months offerings, please take a look now.

Our **Featured Mineral of the Month** for June is **Fluorite** from the Rogerley Mine in the Weardale district, Durham, England. Rogerley is the only specimen mine in the entire United Kingdom.

The **Offerings** for June are five minerals from such divergent sources as Peru, China, Australia, and Namibia. We always strive to select specimens for our special offers that have an especially interesting or unusual range of color and structure, and we think we have succeeded this month.

NOTE:

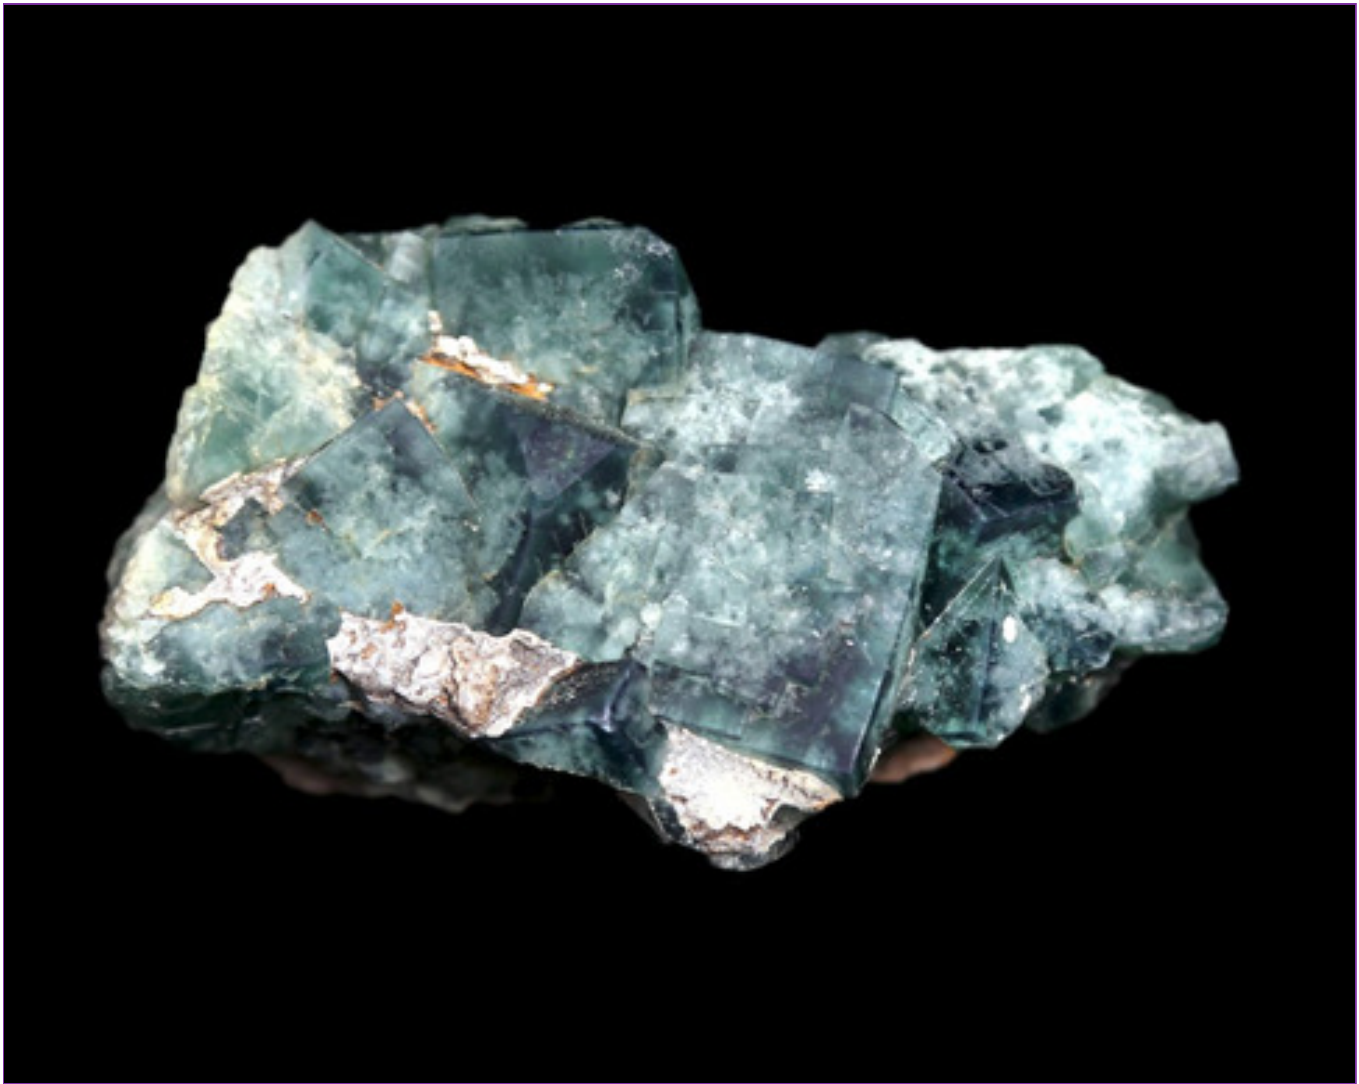

We have sold out on the cinnabar and only have 1 piece of the black quartz left.

***Click on the link on the top left of the page to see the offer sheet , platinum letter, newsletter and write up for June.**

You can place your order via email at
christine@celestialearthminerals.com
or by calling #800-941-5594

Coming in July...

Our Mineral of the Month for July will be celestine from another classic locality-the Sakoany, Mitsinjo District, Boeny Region, on the northwestern coast of the Republic of Madagascar. Since the late 1960s, Sakaony has been the world's premier source of fine, soft-blue, celestine specimens. Our specimens consist of wall sections of geodes that are completely covered with nicely developed, orthorhombic crystals of blue celestine. We have also acquired a number of exceptional celestine specimens which we will be offering exclusively to our Platinum Level members.

FLUORITE

**Save
10%**

On your entire order every time you order 4 or more items from The Platinum Letter or Offer Sheet.
