We have added 61 new specimens to the regular website galleries. A very good mix of price and size ranges, featuring new material from the mines in Tennessee, Art Smith collection specimens, thumbnails, European classics, etc.

New specimens have been posted for this week's auction. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * **outstanding Tsumeb cerussite**
- * **choice Phoenix Mine, Michigan copper**
- * **gem tanzanite thumbnail**
- * **fine native lead from Sweden**
- * **unusual tabular emerald from Colombia**
- * **excellent Ohio pyrite**
- * **large gemmy colorless spodumene**
- * **fine long terminated malachite stalactite**
- * **Plus many, many others ...**

As always, we welcome your comments and suggestions.
