DEc. 19, 2013

Hi Folks!

This week's New Additions gallery is scheduled to be released TONIGHT at 5pm US Mountain Time.

Most of these are rare species including one Artsmithite from Art Smith's collection. Also Yanomamite, Salesite, Quintinite, Ottemanite and a very nice Greenockite from Siglo XX. Again this is about to be released today at 5pm US Mtn Time.

New Additions Update Dec. 13

There remains several good specimens including a a blue Wavellite and two very nice Fluorite. Click [New Additions Update](#) to see it.

I picked up several pieces from Art Smith's collection and will be posting these periodically in the New Addition updates.

We also acquired a number of Homestake mine specimens and Chilean specimens recently.

We will be going to Tucson. I'll be of course shopping for good deals to bring you. Please note, if you have minerals you would like to sell to me, this is your chance!

We wish all of you a Merry Christmas and Happy New Year. Vicki and I always feel so fortunate to have customers like all of you.
