We have just added over 100 new specimens to the regular website galleries. The update is highlighted by many neat rare species (some type material specimens) and strange locality specimens from the Ralph Merrill collection, as well as some very attractive new pieces from China. More of the Merrill collection material will be coming soon.

New specimens have been posted for this week's auction. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * **several good native silver specimens**
- * **fine campylite from England**
- * **beautiful yellow mimetite from Mexico**
- * **gem topaz from Pakistan**
- * **several good smithsonites from Tsumeb and Morocco**
- * **a fine Washington grossular**
- * **large barite from Magma Mine, Arizona**
- * **several good adamites**
- * **Plus many, many others ...**

As always, we welcome your comments and suggestions.

**Weinrich Minerals, Inc.
Dan & Diana Weinrich, owners**
