We have added 125 new specimens to the website. A great mix of things in all price and size ranges. Many neat and unusual specimens ex University of Arizona are included. Look for another update of 64 neat thumbnail specimens tomorrow.

This is a reminder that the auction will close this evening at 7 p.m. eastern standard time. There are 100 great specimens - too many good ones to feature all in this mail! Highlights include:

- * excellent gem crystal specimens such as aquamarines, peridot, etc.
- * fine Alpine smoky quartz specimen
- * rhodochrosite from Colorado; pyromorphite from France
- * large well crystallized axinite from Pakistan
- * classics such as Kelly smithsonite, Wisconsin calcite and Michigan copper
- * some excellent thumbnail specimens
- * Chessy azurite
- * Gold from California
- * Plus many, many others ...

As always, we welcome your comments and suggestions.
