## New from Pakistan and Afghanistan

On the website I've added new specimens under [Pakistan-Afghanistan - June 2014 Update](#).

This update features selected fine mineral specimens from Pakistan and Afghanistan (shocker, given the name of the update, I know), including excellent red zircons, a beautiful large cluster of aquamarine crystals, a group of stacked ilmenite rosettes, a transparent

epidote, a super diopside miniature, elbaite, red hydroxylclinohumite and lustrous magnetite.

For all new specimens at McDougall Minerals, see [New Specimens](#).

If you are receiving this email in any format in which the above links don't work, the addresses are:

<http://www.mcdougallminerals.com/Pakistan-Afghanistan-June-2014.html>

<http://www.mcdougallminerals.com/New-Specimens.html>

Hope you enjoy the update!
