Celestial Earth Minerals & Mineral of The Month Club

AUGUST 2014

Dear David A.,

See what we have in store for you this month...

[click here for newsletter](#)

Featured Mineral

This month we are thrilled to feature the lovely Desert Rose.

You can choose from individual rosettes or clusters of this selenite variety of gypsum.

The word selenite is derived from the Greek selenities, or "stone of the moon". You will see the pearly, moon-like luster on these crystal beauties.

For in-depth information on desert rose read our exclusive write-up.
