Subject: Don't Miss out on the September Offering -Mineral of The Month Club

Celestial Earth Minerals & Mineral of The Month Club

SEPTEMBER 2014

Dear David A.,

See what we have in store for you this month...

[click here for newsletter](#)

Featured Mineral

We only have a few mid-sized specimens left of the Lapis Lazuli

This month's featured mineral is Lapis Lazuli from Afghanistan. Our specimens were mined in Afghanistan's Kokcha Valley, the classic locality for lazurite and the world's premier source of lapis lazuli.

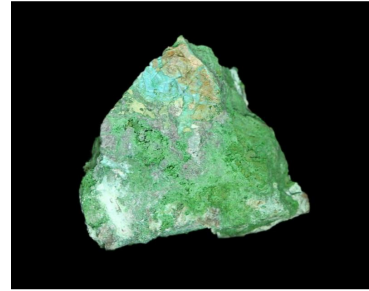

Lapis Lazuli has been prized since antiquity and has a long and interesting history. To read more **[click here for lapis lazuli write-up](#)**

Offering

The minerals on the monthly offering sheet are sure to please...read the offer sheet for all the glorious details.

There is only 1 conicalcrite left...

From the California Collectors Collections..there are a few neptunites are left.

Coming in October...

You can look forward to bright-blue pentagonite as the featured mineral in October.

It is a rare mineral that is known to occur only in India and the United States. It crystallizes in the orthorhombic system with spherical sprays of bright-blue crystals that contrast beautifully against an off-white matrix of zeolite.

Blessings from Dimitri, Mary, Christine, and Lora,

Celestial Earth Minerals & Mineral of the Month Club
