Dakota Matrix Minerals

March 27, 2015

Hi Folks,

[Our Weekly Update is tonight at 6pm US Mtn Time.](#)

Postings tonight at 6pm US Mountain Time will include a matrix **Samsonite from Andreasberg, A Scottyite with Wesselsite & Lavinskyite, Thorneite, Argyrodite and a Kitkaite**....all very rare so don't miss these!

[Special Editions](#)

We added three to the upcoming list, which can be viewed here: [Special Editions](#). In brief, these are the additions:

April - **Monteponi Phosgenites** from the Renato Pagano collection. Renato recently published an article in the Mineralogical Record (Nov/Dec 2014) on this classical locality.

August - **Ivigtut**

November - **Tsumeb III**

We postponed the **Feldspar Group Special Edition**. As common as this mineral is, good specimens are hard to come by, with the exception of Colorado amazonites. If anyone out there has feldspar group minerals in which they would like to sell, please contact me at this address: dakotamatrix@gmail.com.

As a reminder:

1. If you are a registered user, **you have the power** to know ahead of time if a certain mineral will be posted. Just fill out your **WANT LIST**. Go to "[My Account > Lists > Want Lists](#)" and fill out the blanks one mineral per slot. When one of these minerals, on your list is due to be posted, you will get an email notice. You will know ahead of time...usually same day... You need to be a registered user. Please click [Want List for additional help](#).

2. Remember, you do not have to be logged in to order. You can email me or call me (605) 718-9130. Although I'm usually screwing off and not answering the phone after preparing an update. Ordering online through the cart, however, is the surest way of getting your specimens.

Thanks!

Tom
