New from Broken Hill

In this [Broken Hill Update \(click here\)](#), I've added a few fine specimens from the classic Australian locality. Today the best sources for classic specimens from Broken Hill are old collections - these are from the collection of Milton Lavers, who was a well-known collector from Broken Hill.

Hope you enjoy these - next week I'll post the first of the upcoming Ste Marie updates.

My usual reminder - prices on the website are in Canadian dollars, which trade at a good discount these days, if you are thinking in (or used to browsing online minerals in) US

dollar terms.

For all new specimens at McDougall Minerals, see [New Specimens](#).
