John S. White Collection (3)

I've posted the third in a series of updates with superb specimens from the [John S. White Collection \(click here\)](#). This update is quartz-themed (scroll down the John S. White gallery to see them). These high-quality specimens from John's collection are from a wide range of localities (classic to contemporary) and include wonderful unusual pieces.

In case you missed my first emails about John and his collection, I've written a short post about him on the website and have included some great photos – hope you enjoy it! ([click here](#))

Hope you enjoy the update!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).
