New from Brazil

I've posted some great new specimens in this [Brazil Update \(click here\)](#). This group includes gorgeous stars of rutile on hematite from Novo Horizonte, older specimens of cyclically-twinned rutile from Diamantina, and beautiful muscovite crystals from a recent find at Mantena, Minas Gerais.

Hope you enjoy them!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

For all new specimens at McDougall Minerals, see [New Specimens](#).
