**** Huge Keystone Mineral Update and Sale**

The sale enters its fourth week and all showrooms have been updated with new specimens offered at the same huge discounts! I also removed all sold items for quicker and easier browsing of the showrooms. Dozens of new specimens have taken their place, including a gold which has been discounted to half price!

We're also accepting offers on all specimens in the other website showrooms. The Exceptional, Tucson, Denver, Gold, Silver, Rhodochrosite, etc. showrooms are now part of the sale. I can't guarantee keystone discounts in these rooms but the discounts will be considerable and I am open to all reasonable offers there.

How do the Sale Discounts Work?

Every mineral specimen in the three Keystone Showrooms is shown with its

original retail price and discounted price (Usually around 50% of the original price). During this Double Keystone Sale, the discounted price is discounted a again by another 50% for a HUGE double discount in the range of 75% off the original retail price!! These are our lowest prices ever and specimens are selling very quickly so please reserve your selections as soon as possible!

Nearly 300 Fine Mineral Specimens at 75% Discounts!
There is No Order Limit and Layaways are Available!
Purchase as many Discounted Specimens as you Like!
