Subject: New Pakistan-Afghanistan and Tucson Report

[View this email in your browser](#)

New from Pakistan and Afghanistan

I've posted a small group of great specimens in this new [Pakistan-Afghanistan Update \(click here\)](#). This group includes colourful brucites from Killa Saifullah, a super matrix diopside from Sar-e Sang, twinned green titanite from Alchuri, topaz from Shigar Valley, and a great red zircon specimen from Astor Valley.

Tucson 2018 Report

I've added my [Tucson 2018 report \(click here\)](#) - another great year, with lots of excellent mineral specimens.

Hope you enjoy these specimens and the Tucson post!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

if you are receiving this email in any format in which the above link does not work, the addresses are:
