New China Fluorite

I've added some beautiful new specimens in this [China Fluorite Update \(click here\)](#). These include specimens from Xiayang, Yongchin Co., Fujian, where the 2017 find of "tanzanite fluorites" was made. This update also features a gorgeous green fluorite with calcite from the famous Xianghuapu Mine, water-clear crystals from Huanggang Mines, and purple octahedra from the De'An Mine.

Hope you enjoy these!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

if you are receiving this email in any format in which the above link does not work, the address is:
