New From Bou Azzer

I have posted some superb new specimens in this [Bou Azzer Update \(click here\)](#) - roselite, erythrite, gersdorffite, cobaltoan calcite and skutterudite.

A few localities from this famous Moroccan mining district are represented, including the famous Agoudal Mine, which unfortunately has just recently closed.

Hope you enjoy them!

Canadian and US Dollar

The currency disparity remains significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

If you are receiving this email in any format in which the above link does not work, the address is:
