Steve Szilard Collection

Just before I get to the new minerals, I hope you are keeping well in these times that are impacting us all, no matter where in the world we are. We're all in this together and I hope you and your families keep safe. For my part, it's a good time to immerse myself in minerals, so I'm doing that, with great updates to come, including lots from Tucson (a little later than expected, but lots nonetheless). Hopefully mineral photos and posts will be welcome.

I've just added super new specimens in a new update from the [Steve Szilard Collection \(click here\)](#). Steve is a well-known and highly respected Canadian mineral collector and this update from his collection includes fine mineral specimens from all over the world. I've

written a little bit more about Steve on the website - you can read it in the section that appears below the descriptions of specimens from his collection, or in [this post about the update on the blog \(click here\)](#).

Hope you enjoy the update!

About COVID-19...

Despite COVID-19, Canada Post remains fully operational with safety measures in place in Bancroft - shipping from Bancroft is no problem. Shipments continue to flow smoothly.

Canadian Dollar Lower

The currency disparity is even more significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).
