**Subject:** New Excalibur Mineral List #22003  
**Attachments:** 22003.pdf

We hope all of you are safe and in good health during this difficult time. Our mineral shop has been closed since mid-March, and we are just beginning to contemplate reopening with restricted entry in compliance with our new Virginia law that requires facemasks and other protections. In the meantime, however, staffing restrictions in the warehouse have slowed our operations considerably, and our most recent mineral list, over a month overdue, has finally been prepared in the attached PDF. A book list will follow in about 10 days.

There are many great rarities listed in the catalog, a good number of one-of-a-kind pieces, reference specimens and even some philatelic ephemera. As usual, all items are first-come, first served, FOB our warehouse. We will begin to process orders on Saturday, June 6, shipping shortly thereafter.

Stay safe!
