**New minerals were posted to John Betts - Fine Minerals moments ago.**

This is the email notification you requested.

Again this week, minerals posted now have videos embedded on each page. Videos are becoming the standard for selling minerals. A video shows the mineral in the hand, to give scale. As the mineral is rotated you can see the overall shape. As the light reflects off the surfaces, you can assess to luster of the crystal faces.

**HIGHLIGHTS OF THE MINERALS POSTED THIS WEEK:**

- Sphalerite on Dolomite from Lisheen Mine, Pangee, Moyne, Ireland
- Native gold from Bald Mountain, Sonora District, California
- Cuprite from Mipilas Mine, Mexico
