Nova Scotia Gmelinite

I've posted beautiful specimens in this new [Nova Scotia Gmelinite Update \(click here\)](#).

These include superb crystals from Two Islands and also some sharp, glassy specimens of gmelinite after chabazite from Five Islands. Neither of these localities has produced gmelinite specimens of this calibre for a while – these came out a few years ago.

Hope you enjoy the update!

Canadian Dollar

The currency disparity is significant in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

If you are receiving this email in any format in which the above link does not work, the addresses are:
