## New Specimens from the John S. White Pennsylvania Collection

I've added John's Pennsylvania Collection to the John S. White Collection pages ([click here](#)). The Pennsylvania collection includes some of the best Smoky Mountain smoky quartz specimens known, along with great specimens of classic Pennsylvania minerals and rarities – pyromorphite, historic azurite, celestine, andradite, magnetite, rutile, twinned calcite, stellerite, ruizite, and more. I hope you will enjoy them!

## Canadian Dollar

The currency disparity remains in favour of the U.S. dollar these days. My usual reminder - prices on the website are in Canadian dollars (if you are thinking in - or used to browsing online minerals in - US dollar terms).

If you are receiving this email in any format in which the above links do not work, the address is:
